SUMMARY

Passionate fullstack developer and BCA student with a flair for crafting interactive, feature-rich websites and applications. Proficient in frontend technologies like HTML, CSS, JavaScript, React, and backend development using Python, MySQL, and Express. Known for building creative platforms (CertiProx FileAlchemy, Aether-Commerce) with animated and responsive designs. Strong problem-solving skills, collaborative mindset, and deep interest in UI/UX and animations.

TECHNICAL SKILLS

- Frontend: JavaScript, React, HTML, CSS,
 - Backend: Python, MySQL, Node.js, Express
 - Tools & Libraries: Axios, Tailwind CSS, Framer Motion, React, Node
 - Other Skills: Responsive Design, API Integration, UI/UX Design, MongoDB (Basic)
-

EXPERIENCE

Vize

March 2025 - Present

Frontend Developer Intern

- Assisting in the development of dynamic and responsive web applications using React, Tailwind CSS, and JavaScript.
 - Collaborating with senior developers to implement UI components and improve user experience.
 - Fixing bugs, optimizing performance, and participating in code reviews to maintain high code quality.
 - Gaining hands-on experience in agile development and Git-based workflows.
-

PROJECTS

CertiProx

- A certificate verification and generation platform designed with secure validation mechanisms.
- Built using React, Node.js, and MongoDB with custom UI and PDF generation support.
- Used animations and responsive layout to enhance user engagement.

Gambling Website (Concept Project)

- Designed a frontend interface for a virtual gambling platform.
- Implemented dynamic game animations, betting logic, and token UI.
- Focused on interactivity and user flow to mimic real-time gameplay.

Ather Commerec

- E-commerce website inspired by electric vehicle branding (Ather).
 - Developed fully animated product showcase, cart system, and dark-mode UI.
 - Built with React and Tailwind CSS, integrating smooth transitions and scroll effects.
-
